HOW TO ACCESS SURVEILLANCE ELEARNING COURSES

To access a Surveillance eLearning course, there are two steps:

- A. Logging into the learning site and
- B. Enrolling into the course.

Here below are details of the two steps:

A. Register/Log in the learning site

- I. From your browser, open the learning site on <https://echs.uonbi.ac.ke/> (you can click this link or type on your browser).

- II. If you are new on this site, you will need to create a new account by clicking the button 'New Account'. You will create your own username and password as well as give profile details requested. An email will be sent to the email address you provide for you to confirm your account before proceeding, so be keen to type your email address accurately.

- III. If you already have an account on the <https://echs.uonbi.ac.ke> learning site, log in using your username and password

- IV. If you forgot your password, use the [forgot username/password link](#), appearing just below the Login button.

B. Enrolling to the course

- I. Once you are logged in, click the link '*NASCOP Surveillance Courses*'.

- II. You should see a video of broad introduction for NASCOP SIRI courses. **Scroll** below the video to see the Surveillance courses:
- Implementing HIV Case Based Surveillance in Kenya and*
 - Kenya HIV Recent Infection Surveillance.*
- Click on the button named [Access/Enroll me](#) to enroll into the course (located below each course)

The screenshot displays the University of Nairobi College of Health Sciences e-Learning Portal. At the top, there is a navigation menu with links for 'About Us', 'Contact us', 'All Courses', 'NASCOP Surveillance Courses', and 'Log in Courses'. Below the navigation, a dropdown menu shows 'Course categories:' with 'NASCOP-SURVEILLANCE COURSES' selected. A video player is embedded, showing a woman in a blue blazer speaking. Below the video, there are two course cards. The first card is titled 'Kenya HIV Recent Infection Surveillance' and the second is titled 'IMPLEMENTING HIV CASE BASED SURVEILLANCE IN KENYA'. Both cards have a red box around the title and an 'Access' button at the bottom. The text on the cards describes the course goals and provides information about being free of charge and receiving CPD points.

About HIV Case Based Surveillance (CBS) Course

The goal of this course is to equip health managers and health care workers in Kenya with the capacity to implement HIV Case Based Surveillance. Further, this course aims to elaborate on their different roles and responsibilities in supporting the MOH in implementation of CBS within the country, and finally, how to use CBS data for program improvement and public health response.

The CBS course is free of charge. You will receive a certificate of completion with 10 Continued Professional Development (CPD) points.

The CBS course is developed by the Research and Implementation (SIRI) unit at the National AIDS and STI Control Programme (NASCO) in the Ministry of Health, Kenya with technical support from Global Programs for Research and Training, an affiliate of the University of California San Francisco (UCSF) and with funding from the Centers for Disease Control (CDC)-Kenya.
